About Me / who am i

I am an **organized, goal driven** and **passionate** 19 year old **engineer** in making based out of **Nagpur**. I have been in the field of creatives and creation since **2 years** constantly **upskilling** and keeping my self tuned with the industry trends. My skillset is a complete bundle of everything it takes from pre production to post production of content. My skills are not just limited to abstract knowledge but also extends to practical and **technical expertise**. Being a keen **observant** and quick **learner** I find it really easy to cope up with newer aspect or responsibility assigned to me no matter weather it is directly or indirectly in relation with my role.

My Specialties / what i do

Social Media Management

I do have understanding of how social media works and using social analytics / tactics / trends to make content perform better.

Photo/Video Editing

Well developed technical & creative skills in editing photos and videos.

Photography / Videography

Perfect at shooting Cinematics & capturing photographs. Familiar with using gimbal & other accessories. Can shoot content / commercial for brands.

Virtual Assistance

Skills like workflow management, communication, scheduling meetings and putting tech to use for the same makes me a efficient virtual assistant.

Web Development

Comfortable with frontend development and using WordPress in developing a dynamic website.

Graphic Designing

Mastery in designing graphics such as presentations, thumbnails, posters, flyers and website UI.
